Milsoft FieldSyte

Put the full power of Milsoft's engineering and operations solutions in the palm of your hand with Milsoft's latest product, FieldSyte™. FieldSyte includes a robust set of tools to help you work efficiently and effectively from wherever you are, no matter your network coverage. Search and trace your electrical model, work outage tickets, integrate with AVL and AMI systems, document a tailgate meeting, or perform inspections and right of way tasks. FieldSyte currently has over a dozen different modules with many more on the way, allowing you to build out the solution that fits your needs. Available for use on iOS, Windows, and Android devices.

FieldSyte Includes:

• Milsoft Model and Customer Data
• Open Street Map Landbase
• Fault Locate
• Map Notes
• Model Trace

• Sketch
• Measure
• Navigation
• User Location Tracking
• External GPS Integration

What Else Can You Do with FieldSyte?
